The Office of Permits and
Inspections
Talbot County, Maryland

Building Permit

- A building permit is required prior to construction of any additions in Talbot County. A building permit application may be obtained from the Talbot County Office of Permits and Inspections located at 215 Bay Street, Suite 3 Easton, Maryland. Applications are accepted between 8:00 a.m. and 4:00 p.m. Monday – Friday. A fee for a building permit is based upon the value of the construction project. Each applicant is required to fill out the **entire** permit application and sign and date the bottom.

Site Plans

Submit **four (4)** Site Plans showing the following: Drawn to a standard Engineering scale of 1"=10', 1"=20', 1"=50', etc. with scale noted on plan.

- The site plan and all existing and proposed structures and improvements including accessory utility equipment (ex: HVAC, generators) and propane tanks shall be drawn to the same scale.
- Location and dimensions of all roads, easements, property lines and natural features.

- Setbacks from property boundary lines, shorelines, streams, and wetlands to the proposed structure(s).
- All structures shall be shown on site plans and be properly labeled in order to be accepted.
- The location of the existing septic system and the Sewage Disposal Area (SDA) if applicable. Include the location of the septic tank(s) and the location of the distribution system (tile fields & distribution box or dry well). ***If the applicant is unclear as to the location of the SDA, the applicant may contact the Office of Environmental Health to review the records. If an approved SDA exists on site, both the SDA and septic system must be shown on the plan.***
- The location of the well, labeled as existing or proposed.
- The location of the driveway, labeled as existing or proposed.
- If driveway is proposed, you will be required to obtain a permit from the Roads Dept. Please call 410-770-8150 for more information.

County Floodplain Management Code is required.

obtaining a permit package of requirements and application forms.

Construction Drawings

Submit **three (3)** to scale copies of construction drawings should show construction detail, including floor plan showing door & window size, footing/foundation, cross section and elevation details. **Foundation plans** should show: dimensions, size & spacing of piers, vent location, wall thickness, size & depth of footers, framing detail, joist size & spacing and beam spaces, footing, foundation, joist size and beam size.

Cross section plans should show: construction detail from footer to ridge beam.

Elevations should show: height, roof pitch, ventilation, roof material, front, back and side elevations. If your construction is determined to be in a Special Flood Hazard Area (SFHA), compliance with the Talbot

- For property served by well and/or septic systems, the County Environmental Health Department will review the project for compliance with appropriate setback requirements.
- To request inspections, please contact the Office of Permits and Inspections at 410-770-6840.
- Construction must begin within 9 months and be completed within 18 months of permit issuance.
- A Certificate of Occupancy will be issued only after the project has passed all required inspections.

This brochure may not address all situations but is intended to provide general information for the permitting process.
