By the Council: November 19, 2019

**A BILL TO AMEND CHAPTER 190 OF THE TALBOT COUNTY CODE (ZONING, SUBDIVISION AND LAND DEVELOPMENT) TO ALTER THE SETBACK AND ROAD ACCESS REQUIREMENTS FOR PRODUCT RECYCLING WHEN SUCH USE IS ESTABLISHED WITHIN AN ACTIVE MINERAL EXTRACTION SITE AND TO REQUIRE AN OPERATION PLAN AS PART OF THE PROCESS FOR APPROVING A PRODUCT RECYCLING USE IN SUCH LOCATION**

**WHEREAS**, Chapter 190 of the Talbot County Code (“Chapter 190”) authorizes mineral extraction in the AC, CP, WRC and RC zoning districts subject to obtaining a special exception and provided the operation complies with the requirements of Code § 190-30.8, including a minimum 200’ setback from property lines; and,

**WHEREAS**, Chapter 190 authorized product recycling in the same zoning districts where mineral extraction is permitted, as described above, subject to obtaining a special exception and provided the operation complies with the requirements of Code § 190-30.12, which include a minimum 500’ setback from property lines and that the property have direct access to a major collector or arterial highway; and,

**WHEREAS**, a text amendment application was submitted to the County Council in accordance with Code § 190-55, seeking a modification to the recycling product requirements in Code § 190-30.12 so that approved mineral extraction operations wishing to establish a product recycling use on the same premises could utilize existing mineral extraction setbacks and waive the direct access to a highway requirement; and,

**WHEREAS**, the Planning Director prepared a staff report and recommendation on the proposed text amendment for the Planning Commission; and,

**WHEREAS**, on September 4, 2019, and November 6, 2019, the Planning Commission discussed the proposed text amendment and recommended that the proposed text amendment be adopted with certain changes; and,

**WHEREAS**, an overarching land use policy in the 2016 Talbot County Comprehensive Plan is to preserve the rural character of Talbot County; and,

**WHEREAS**, the County Council finds that facilitating product recycling at active mineral extraction sites through reduced setbacks and waiving the requirement for direct access to certain highways will lessen the incentive to convert agricultural or forested land to industrial use and encourage recycling on land already devoted to and impacted by similar industrial uses.
