WHEREAS, the Talbot County Office of Environmental Health has authorized repairs to the on-site sewage disposal system on the Property in the past few years, and the connection to public sewer provides a long-term solution to address anticipated future failures of the on-site sewage disposal system; and

WHEREAS, on March 12, 2021, the Owners filed a Request for an Amendment to the Talbot County Comprehensive Water and Sewer Plan for Change of Priority Status requesting the reclassification of the Property's sewer status from Unprogrammed to "S-1", Immediate Priority Status; and

WHEREAS, the County Engineer has evaluated and confirmed the feasibility of extending public sewer to the Property and has requested that the Talbot County Office of Law prepare this amendment to the Talbot County Comprehensive Water & Sewer Plan ("CWSP") to facilitate extension of public sewer to the Property; and

WHEREAS, in accordance with the requirements of Md. Code Ann., Environment § 9-506(a)(1), the proposed amendment has been submitted to the Talbot County Planning Commission and the Talbot County Public Works Advisory Board for review for consistency with planning programs for the area; and

SECTION FOUR: The proposed use shall be a residential dwelling with an allocation of 1.0 equivalent dwelling unit ("EDU") of sewer capacity as presented in the Talbot County Sewer Billing Ordinance, Bill 126. The peak flow sewer allocation to the Property shall be limited to 125 gallons per day per EDU, and remaining capacity for the Region II plant shall be reduced accordingly.

SECTION FIVE: Connection to the sewer system serving the Town of St. Michaels and surrounding areas shall be through a septic tank effluent pump (STEP) system and force main.

SECTION TEN: No sewer service shall be available to any area beyond the existing property to be served.
