ORGANIZATIONAL CHART

LIST OF ELECTED AND APPOINTED OFFICIALS

TALBOT COUNTY, MARYLAND

Court House
11 N. Washington Street, Suite 9
Easton, Maryland 21601

FAX: 410-770-8006 TTY: 410-822-8735

December 15, 2010

To the County Council and Citizens of Talbot County, Maryland:

FINANCE OFFICE

PHONE: 410-770-8020

I am pleased to submit the Comprehensive Annual Financial Report (CAFR) for Talbot County, Maryland for the fiscal year ended June 30, 2010 as required by both local and state statutes. These statutes require that Talbot County, Maryland annually issue financial statements presented in conformity with generally accepted accounting principles in the United States of America (GAAP) and audited in accordance with generally accepted auditing standards in the United States of America by a firm of licensed certified public accountants.

This report consists of management's representations concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for these representations, the management of the County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The County's financial statements have been audited by TGM Group, LLC, Independent Certified Public Accountants. TGM Group, LLC issued an unqualified ("clean") opinion on the County's financial Statements for the year ended June 30, 2010. The goal of the independent audit is to provide reasonable assurance that the financial statements of Talbot County, Maryland for the fiscal year ended June 30, 2010, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor's report is presented as the first component of the financial section of this report.

The County is required to undergo a federally mandated annual audit called the "Single Audit" which is designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the County's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in Talbot County's separately issued Single Audit report.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis to accompany the basic financial statements. MD&A is designed to complement this letter of transmittal and should be read in conjunction with it.

Profile of the Government

Talbot County, located on the Eastern Shore of Maryland, was visited by Captain John Smith in 1608 and settled by the English 50 years later. The County was incorporated in 1661. The County has a land area of 269 square miles and more than 600 miles of waterfront. Talbot County is a predominantly rural county with a total of 172,227 acres, of which approximately 102,000 acres are farmland.

There are five incorporated towns within Talbot County. The Town of Easton is the County seat and is centrally located. Easton is the major residential, commercial, and employment center of the County. St. Michaels is located on the shores of the Miles River. Oxford is located along the Tred Avon River. The Town of Trappe is located in the south-central portion of the County along U.S. Route 50. The Town of Queen Anne straddles the Talbot County and Queen Anne's County border along Route 404.

Form of Government

Both the executive and legislative functions of the County are vested in the elected, five-member County Council. Council members are elected on a countywide basis and serve four-year terms; the terms of the current members of the Council run to December 2010. The Council elects one Council member to serve as its President and one to serve as its Vice President.

As the result of a referendum held in November 1973, the County has adopted the Charter Home Rule form of government provided in Article XI-A of the Maryland Constitution and Article 25A of the Annotated Code of Maryland. Under this form of government, the Council has the authority to enact, amend, and repeal legislation relating to the incorporation, organization, and government of the County.

The County Manager, who is appointed by the Council, is the chief administrative officer of the County and is charged with the administration of all agencies of the County government.

The County provides a full range of municipal services including education, libraries, public safety (police, detention center, emergency medical services and volunteer fire services), recreation activities, health and social services, sanitary districts, highways and streets, airport, planning and zoning, and general administrative services.

Component Units

The Talbot County Board of Education and the Talbot County Free Library Association, Inc. are reported as discretely presented component units because they are deemed to be fiscally dependent on the County. These component units are reported separately within the County's financial statements to emphasize that they are legally separate from the County. Additional information on these component units can be found in Note 2 of the Notes to the Financial Statements.

Budget Process

The annual budget serves as the foundation for Talbot County's financial planning and control. The formulation of the County's budget is the responsibility of the County Manager, who is subject to the supervision of the County Council.

All County departments and agencies seeking funding, submit requests for appropriations to the County Manager in February of each year. These requests are reviewed and amended by the County Manager (except for the budget requests of the Legislative Branch and the Board of Appeals), and a preliminary budget is drafted and introduced by the County Council in April. At least two public hearings are held on the proposed budget. The County Council may increase, decrease, or delete any items in the budget except those required by the laws of the State, and any provisions for debt service on outstanding obligations or for any estimated budget deficits from prior years. The Annual Budget and Appropriation Ordinance must be passed by the County Council on or before June 1 of each year, to be effective on the first day of the subsequent fiscal year. The appropriated budget is prepared by fund, department/agency, and general classification of expenditure (personnel, operating, capital outlay, debt service, etc.). Budgetary control for all operating budgets is maintained at the general classification level and at the project level for capital projects. Transfers of appropriations between general classifications of expenditures within the same department may be authorized by the County Manager. Transfers between departments of the county government and within the same fund may be made only during the last quarter of the fiscal year and only on the recommendation of the County Manager and with the approval of the Council. Budget-to-actual comparisons are provided in this report for the individual governmental funds for which an appropriated annual budget has been adopted. The general fund comparison is presented on page 70 as part of the basic financial statements for the governmental funds. For governmental funds, other than the general fund, with appropriated annual budgets, this comparison is presented in the Supplementary Information subsection of this report that begins on page 83.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the County operates.

Local Economy. Like state and local governments across the country, Talbot County is concerned about the slumping economy and the far reaching effects it has had on Maryland's and Talbot County's overall economy. Of greatest concern are the impacts of potential reductions in state funding and additional costs that may be passed on to local governments, and the reductions of income tax revenues, primarily those derived from non-wage income. Nevertheless, the County continues to have a healthy mix of service related businesses, agriculture, and light manufacturing. Employment is expected to remain stable and the unemployment rate should continue to mirror the State (7.3%) rate and be below the National (9.5%) rate as evidenced by the June 2010 County rate of 7.2%. In addition, the County has maintained favorable tax rates, including the lowest property tax rate and the second lowest income tax rate in the State.

The County's 600 miles of shoreline and many historic sites make it a significant tourist destination, drawing visitors from all over the region. Additionally, its abundant waterfront provides many desirable home sites. Development is purposely controlled to protect the County's beauty and the fragile environment of its shoreline and waters. More intense development is limited to the incorporated municipalities where water and wastewater treatment services are available.

Long Term Financial Planning. The County is planning to refund existing debt in FY 2011 to take advantage of lower interest rates. The County is not planning to issue any new debt in FY 2011. In FY 2011 and beyond the focus will be on providing for various County and School building maintenance projects and Public Safety communication projects and grant matching dollars for park and public landing improvement projects. The only major new initiative identified in the FY 2011 Capital Program is the extension of sewer and water to a new hospital site in Talbot County.

Talbot County has a policy to "reserve" a portion of the General Fund unreserved, undesignated fund balance equal to 15% of actual General Fund expenditures to be used in case of fiscal emergencies. As of June 30, 2010 Talbot County's unreserved, undesignated fund balance was more than 24% of actual expenditures.

The County's FY 2010 actual Income Tax revenues were 27.6% less that the amount originally budgeted. In December 2009, The County Council revised the original budget to reflect the anticipated reduction in revenues. The County delayed renovation of a County Office facility indefinitely, initiated a hiring freeze and made reductions in the County's workforce that continued into FY 2011. The FY 2011 budget anticipates an increase in Income Tax revenues from the FY 2010 actual collections.

Pension and Other Post Employment Benefits. County employees are covered by either the Employee's Retirement System or the Employee's Pension System of the State of Maryland. These are cost-sharing multiple-employer public retirement systems sponsored and administered by the Maryland State Retirement and Pensions Systems and created by the Maryland General Assembly.

The County also provides post-retirement health care benefits for retirees and their dependents. Retirees pay a portion of the cost of the benefits based on their length of service with the County. The County's portion of these cost are currently funded on a pay-as-you-go basis. The County's Retiree Health Plan is more fully described in Note 8 that begins on page 63. In FY 2008, FY 2009 and FY 2010, the County chose to set aside a portion of its unreserved fund balance, \$8.96 million, to begin funding this liability.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Talbot County, Maryland for its comprehensive annual financial report for the fiscal year ended June 30, 2009. The Certificate of Achievement is a prestigious national award that recognizes conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. Talbot County, Maryland has received a Certificate of Achievement for the last nine consecutive years. We believe that our current comprehensive annual financial report continues to conform to the Certificate of Achievement Program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this comprehensive annual financial report was made possible by the dedicated service of the entire staff of the Talbot County Finance Office. The Finance Office has maintained the accounting records of the County on a current and timely basis. I would like to express my appreciation to all members of the department for their conscientiousness and professionalism throughout the fiscal year.

Respectfully Submitted,

Angela Lane Finance Director

angela Lane

FINANCIAL SECTION

INDEPENDENT AUDITORS' REPORT

County Council of Talbot County, Maryland Easton, Maryland

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of Talbot County, Maryland as of and for the year ended June 30, 2010, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Talbot County, Maryland's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Board of Education of Talbot County, Maryland. Those financial statements were audited by another auditor whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Board of Education of Talbot County, Maryland is based on the reports of the other auditor.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of the other auditor provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of the other auditor, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of Talbot County, Maryland as of June 30, 2010, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2010, on our consideration of Talbot County, Maryland's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 13 through 23, budgetary comparison information on pages 70 through 79, and the schedule of funding progress – other post-employment benefits on page 80 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Talbot County, Maryland's basic financial statements as a whole. The introductory section, combining nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The budgetary comparison schedules on pages 83 through 94 and the combining nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide assurance on it.

Salisbury, Maryland December 15, 2010

AM Aroup LAC

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION & ANALYSIS

This section of the Comprehensive Annual Financial Report of Talbot County, Maryland presents a narrative overview and analysis of the financial activities of Talbot County Government for the fiscal year ended June 30, 2010. We encourage readers to use the information presented here in conjunction with the accompanying letter of transmittal, the basic financial statements and the accompanying notes to those financial statements.

FINANCIAL HIGHLIGHTS

- As of June 30, 2010, the assets of Talbot County exceeded liabilities by \$144.3 million (net assets), a decrease of \$6.8 million, or 4.5 percent, from the prior year. Approximately 62.4 percent of net assets are attributable to the County's governmental activities. Of total net assets, \$14.3 million are available for use to meet the County's ongoing obligations to its citizens and creditors (unrestricted net assets).
- Income Tax revenues decreased by \$12.3 million or 39.1 percent from FY 2009's actual collections due to lower net tax liabilities of County taxpayers.
- As of June 30, 2010, the County's governmental funds reported combined fund balances of \$56.7 million, a decrease of \$9.8 million, or 14.7 percent, from the prior year. Approximately 30.0 percent of the combined fund balances is available to help meet the County's future funding needs (unreserved and undesignated fund balance).
- The unreserved fund balance for the General Fund (primary operating fund) was \$17 million or 24.2 percent of general fund expenditures and other financing uses at June 30, 2010. \$7 million, or 21.2 percent of the unreserved fund balance, has been designated for use in the fiscal year 2011 budget and \$8.9 million, or 27.2 percent of the unreserved fund balance, has been designated for advance funding toward the County's long-term obligation related to non-pension, or "other post-employment" benefits (OPEB).
- Talbot County Government's total debt, excluding compensated absences, decreased by net \$2.5 million during the year ended June 30, 2010. See Note 6 of this report for details of the additional debt incurred and existing debt paid.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to Talbot County Government's basic financial statements. The basic financial statements comprise three components:

- Government-wide financial statements (reporting on the County as a whole)
- Fund financial statements (reporting the County's most significant funds)
- Notes to the financial statements

This report contains other required and non-required supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of Talbot County Government's finances, in a manner similar to that of a private sector business. The Statement of Net Assets and the Statement of Activities are prepared using the accrual basis of accounting.

The Statement of Net Assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases and decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses for some items reported in this statement will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). Of particular interest is the format of this statement. The reader will notice that expenses are listed in the first column with revenues from that particular program reported to the right. The result is Net (Expense) Revenue. The purpose of this type of format is to highlight the relative financial burden of each of the functions on the County's taxpayers. It also identifies how much each function draws from the general fund revenues, or if the functions are self-supporting through fees and grants. It is important to note that all taxes are classified as general fund revenue even if restricted for a specific purpose.

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, public safety, public works, health, social services, education, recreation, and conservation of natural resources. The business-type activities of the County include recreation facilities, wastewater treatment services, and an airport facility.

The government-wide financial statements include not only the operations of Talbot County Government itself (known as the primary government), but also the legally separate organizations of the Board of Education of Talbot County, Maryland and the Talbot County Free Library Association, Inc. The financial information for these component units is reported separately from the financial information presented for the primary government.

The government-wide financial statements can be found on pages 25-28 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related

legal requirements. All of the funds of Talbot County can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Talbot County, Maryland maintains three types of governmental funds: general, capital projects and special revenue. Information is presented separately in the governmental fund Balance Sheet and in the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances for all three types of governmental funds.

The basic governmental fund financial statements can be found on pages 31-34 of this report.

Proprietary Funds. Proprietary funds are reported in the fund financial statements and generally report services for which the County charges customers a fee. Proprietary funds include internal service funds and enterprise funds. An internal service fund is an accounting device used to accumulate and allocate costs internally among the County's various functions. Talbot County does not maintain any internal service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its wastewater treatment services, recreation facilities, and airport.

Proprietary fund schedules provide the same type of information as the government-wide financial statements, only in more detail.

The basic proprietary fund financial statements can be found on pages 35-40 of this report.

Notes to Financial Statements

The notes to the financial statements are part of the basic financial statements and provide additional information that is essential to creating a full understanding of the data provided in the government-wide and fund financial statements. The Notes to the Financial Statements can be found on pages 42-68 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information and disclosures that are not considered part of the basic financial statements. Required supplementary information includes a budgetary comparison for the General Fund to demonstrate compliance with the annually adopted budget. Other supplementary information includes budgetary comparisons for the Capital Projects, Other Governmental, and Enterprise Funds, and combining statements for Other Governmental Funds. These reports are located immediately following the notes to the financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of a government's overall financial condition and position. In Talbot County, assets exceeded liabilities by \$144,357,264 at the close of the most recent fiscal year, as shown in the schedule of net assets below. Talbot County's net assets are divided into two categories, *invested in capital assets*, (net of related debt) and *unrestricted net assets*. 90.1 percent of the County's net assets reflect its investment in capital assets net of depreciation (e.g., land, buildings, infrastructure, machinery and equipment) less any related outstanding debt used to acquire those assets. The County uses capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the County's investment in capital assets is reported net of outstanding debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

The remaining balance of unrestricted net assets (9.9 percent) may be used to meet the County's ongoing obligations to its citizens and creditors. See Note 14 for additional information on the County's unrestricted net assets.

Talbot County Government's Net Assets

Talbot County's net assets decreased by \$6.8 million during fiscal year 2010, which can be largely attributed to decreases in Income Tax revenues and investment earnings due to the overall economy, partially offset by increased revenues from Capital Grant funding for business-type activities capital projects. These items are addressed in more detail below.

Governmental Activities. Governmental activities decreased the County's net assets before transfers by \$8.3 million.

Key elements of the decrease in net assets of governmental activities are as follows:

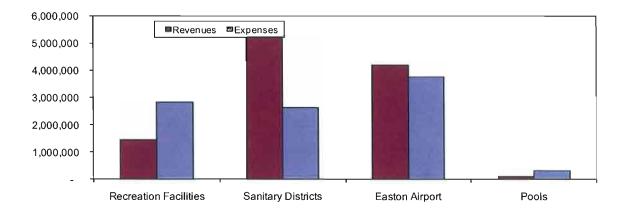

- Income Tax revenues decreased by \$12 million, a 39.1 percent from the prior year actual and were \$7.3 million less than originally budgeted for FY 2010.
- Property tax revenues increased by 3.2 percent over the prior fiscal year and were \$345 thousand more than budgeted. Assessments on new construction accounted for the increase.
- Investment earnings decreased by \$1.5 million, a 60.3 percent decrease from the prior year. This is due to a reduction in interest rates during FY 2010.
- Transfer and recordation taxes, still affected by the weakened housing market, decreased by 3.2 percent from the prior fiscal year.

Governmental activities also included the transfer of nearly \$1.6 million to various business-type activities, primarily for the operations of recreation facilities.

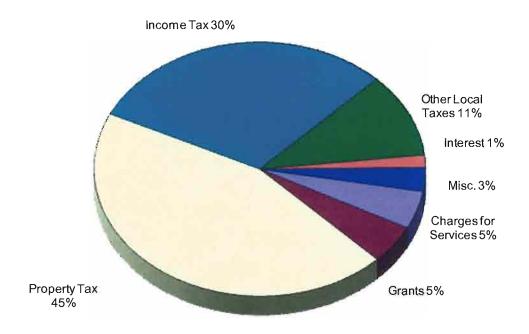

Business-type Activities. Business-type activities increased Talbot County's net assets before transfers by \$1.5 million. The increase is primarily attributable to funding for capital improvements and upgrades to the County's Bio-Solids Utilization facility.

Fiscal year 2010 revenues and expenses for both the business-type and governmental activities are summarized in the charts on the following pages.

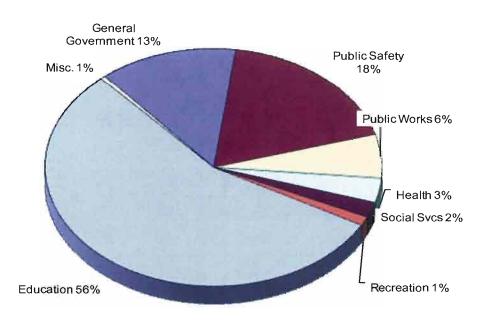

Expenses and Program Revenues - Business-Type Activities For the Year Ended June 30, 2010

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, the unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$56.7 million. Approximately 29.9 percent of this total (\$17 million) constitutes unreserved undesignated fund balance, which is available for spending at the County's discretion. The remainder of the fund balance is either reserved or "designated" to indicate that it is not available for new spending because it has already been committed to fund other purposes. Capital projects and advance funding toward the County's long-term obligation related to nonpension, or "other post-employment" benefits (OPEB), account for the vast majority of designated funds.

The General Fund is the primary operating fund of the Talbot County Government. At the end of the current fiscal year, the total fund balance was \$33 million, and the unreserved undesignated fund balance was \$17 million. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved undesignated fund balance and total fund balance to total fund expenditures. Unreserved undesignated fund balance represents 24.2 percent of total general fund expenditures, while total fund balance represents 47 percent of total general fund expenditures.

The fund balance of Talbot County's General Fund decreased by \$8.2 million during FY 2010, mainly due to \$7.3 million less Income Tax revenues than expected and budgeted.

The fund balance of the County's Capital Projects Fund decreased by \$2 million during FY 2010. This decrease was due to expending funding provided in previous years on various capital projects.

Proprietary Funds. Talbot County's proprietary fund statements provide the same type of information found in the government-wide financial statements, only in more detail. The total net assets of the proprietary funds at the end of the year totaled \$54.3 million. There is a deficit of \$399 thousand in unrestricted net assets, primarily due to Sanitary District and Airport investment in capital assets.

GENERAL FUND BUDGETARY HIGHLIGHTS

Differences between the original budget and the final actual results, exclusive of inter-fund transfers and other financing sources/uses, for the County totaled \$4.0 million. Operating revenues were \$6.0 million less than original budgetary estimates and operating expenditures were

\$2.0 million under original budgetary estimates. The major variances can be summarized as follows:

• **Revenues.** The major differences between the budgeted revenues and the actual revenues received are:

Income tax revenues received were \$7.34 million less than budgeted. Property tax revenues exceed budget by \$0.34 million, investment income was \$0.87 million less than budgeted. Transfer and Recordation taxes were \$1.6 million more than budgeted.

• **Expenditures.** The major differences between the budgeted amounts and the actual expenditures are:

Reserve for Contingencies is budgeted in case funds are needed for specific problems or opportunities. For FY 2010 \$0.7 million was left in the Reserve for Contingencies line item. Employee Benefits actual expenditures were \$0.7 million less than budgeted. All other expenditures were \$0.6 million less than budgeted for during the year.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets. Talbot County's investment in capital assets for its governmental and business-type activities as of June 30, 2010 totals \$144.2 million (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, machinery and equipment, and infrastructure. The total increase in the County's investment in capital assets for the current fiscal year is negligible.

Capital assets are summarized as follows:

Talbot County Government's Capital Assets (net of accumulated depreciation)

		June 30, 2010		June 30, 2009					
- -	Governmental	Business-Type		Governmental	Business-Type

Total	\$ 75,905,106	\$ 68,339,300	\$144,244,406	\$ 77,233,041	\$ 66,811,589	\$144,044,630			

See Note 5 of this report for additional information on Talbot County's capital assets.

Long-term Debt. At the end of the current fiscal year, Talbot County had total long term debt outstanding of \$52,539,762, a net decrease of approximately \$2.5 million. The full faith and credit and unlimited taxing power of the County are irrevocably pledged to the levy and collection of taxes in order to provide for the payment of principal and interest due on the bonds. Of this amount, \$13,666,546 is considered self-supporting bonds, funded through various charges and assessments related to the enterprise operations of the County.

Talbot County Government's Outstanding Debt

		June 30, 2010			June 30, 2009	
	Governmental Activities	Business-Type Activities	Total	Governmental Activities	Business-Type Activities	Total
General Debt	\$ 38,873,216	\$ 13,666,546	\$ 52,539,762	\$ 41,372,747	\$ 13,711,552	\$ 55,084,299

The County's most recent bond ratings from Moody's Investors Service and Fitch Ratings are Aa2 and AAA, respectively (May 2010).

See Note 6 of this report for additional information on Talbot County's long-term debt.

The County's Charter limits the amount of general obligation debt the County may issue to no more than 15 percent of the County's assessable property tax base. See Schedule 15 in the Statistical Section of this report for additional information on the computation of the legal debt margin.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

During FY 2010, Talbot County Income tax revenues declined sharply, 39.1 percent from the prior year. Investment Income continued to decline in FY 2010 also.

Looking forward, overall economic performance is not expected to improve significantly in FY 2011. The prospect that the sluggish economy would continue to keep the County's tax revenues from increasing significantly drove many of the decisions to reduce spending when preparing the County's budget for FY 2011. Talbot County's FY 2011 General Fund budget is 7% less that the FY 2010 budget. Further steps to reduce operating expenditures, including additional reductions in staff, have been taken to offset any future State of Maryland funding cuts or reductions in revenue streams in FY 2011 and beyond.

REQUESTS FOR INFORMATION

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of Talbot County Government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director, Talbot County Courthouse, 11 North Washington Street, Suite 9, Easton, Maryland 21601.

TALBOT COUNTY, MARYLAND

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2010

Net change in fund balances - total Government	al Funds	\$ (9,772,538)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures.

However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

Capital outlays	2,281,158
Current year depreciation	(3,561,601)

Total	(1,280,443)
Total	(1,280,443)

Loss on disposal of equipment	(47,492)
Loss on disposar of equipment	(4/,424)

Loan proceeds provide current financial resources to governmental funds; however, issuing debt increases long-term liabilities in the Statement of Net Assets.

Loan proceeds (13,000)

Repayment of debt obligations is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.

Principal payments on long-term debt 2,512,531

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Amortization of bond premium 15,357
Change in other post-employment benefits liability (1,376,720)
Change in compensated absences (52,149)

Change in net assets of Governmental Activities \$ (10,014,454)

Notes to Financial Statements

Note 1. Reporting Entity

Talbot County, Maryland (the "County") is governed by a County Council; its offices are located in Easton, Maryland. The County directly provides all basic local governmental services.

The financial statements of the County are prepared in accordance with U.S. generally accepted accounting principles (GAAP) applicable to governmental units as prescribed by the Governmental Accounting Standards Board (GASB) and other authoritative literature. The following is a summary of the more significant policies:

Note 2. Summary of Significant Accounting Policies

A. Financial Reporting Entity

A reporting entity is composed of the primary government, component units, and other organizations that are included to ensure the financial statements of the County are not misleading. The primary government of the County consists of all funds, departments, boards, and agencies that are not legally separate from the County.

The component unit columns contain the financial data of the County's two discretely presented component units – the Board of Education of Talbot County and the Talbot County Free Library. They are reported in separate columns to emphasize that they are legally separate from the County. Although these organizations are legally separate entities and have separately elected or appointed governing boards, they are included in the financial statements of the County because the County is financially accountable for each organization. Separately issued financial statements can be obtained from the following:

Board of Education of Talbot County Talbot County Free Library Association, Inc.

12 Magnolia Street 100 W. Dover Street Easton, MD 21601 Easton, MD 21601

The Board of Education of Talbot County (BOE) is a separately elected body that administers the public school system in the county. The BOE is organized as a separate legal entity, but does not have the power to levy taxes or issue bonds. The BOE's budget is subject to approval by the county council, and the BOE receives a significant portion of its operational and capital project funding from the County.

The *Talbot County Free Library Association, Inc. (TCFL)* is a separately appointed body that administers the public library system in the county. The TCFL is organized as a separate legal entity, but does not have the power to levy taxes or issue bonds. The county owns and/or maintains most TCFL facilities and provides a significant portion of its operational funding.

The financial statements of the County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Private sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the GASB. Governments have the option of following subsequent private sector guidance for their business-type activities and enterprise funds, subject to the same limitation. The County has elected to follow subsequent private sector guidance.

B. Basis of Presentation

The County's basic financial statements consist of government-wide financial statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Note 2. Summary of Significant Accounting Policies (continued)

Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government. The statements distinguish between those activities of the County that are governmental in nature and those that are considered business-type activities.

The statement of net assets presents the financial condition of the governmental and business-type activities of the County at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities and business-type activities. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues that are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business activity is self-financing or draws from the general revenues of the County.

Fund Financial Statements

During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. The focus of governmental and proprietary fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

C. Fund Accounting

The County uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The County maintains two categories of funds: governmental and proprietary.

Governmental Fund Types

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the County's major governmental funds:

General Fund: The General Fund is the general operating fund of the County. All financial resources, except those required to be accounted for in another fund, are accounted for in the General Fund.

<u>Capital Projects Fund</u>: The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities, which are not financed by proprietary funds.

In addition, the County has two non-major governmental funds, the developmental impact fund and the Talbot Family Network.

Note 2. Summary of Significant Accounting Policies (continued)

Proprietary Fund Types

Proprietary funds focus on the determination of changes in net assets, financial position and cash flows and are classified as enterprise.

Enterprise Funds are established to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent is that costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The following are the County's major enterprise funds:

<u>Recreation Fund:</u> The Recreation Fund is used to account for the operations of the County owned golf course and community center.

<u>Sanitary District Fund:</u> The Sanitary District Fund is used to account for the operations of the County's wastewater treatment plants, onsite sewage disposal systems, and bio-solids utilization facilities.

<u>Easton Airport Fund:</u> The Easton Airport Fund is used to account for the operations of the County owned airport.

In addition, the County has one non-major enterprise fund, the pool fund.

D. Measurement Focus

Government-Wide Financial Statements

The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of the County are included on the statement of net assets.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reflects the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the fund financial statements for governmental funds.

Like the government-wide financial statements, the enterprise funds are accounted for using a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of changes in revenues, expenses, and changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in total net assets. The statement of cash flows reflects how the County finances and meets the cash flow needs of its enterprise activities.

E. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures.

Note 2. Summary of Significant Accounting Policies (continued)

E. Basis of Accounting (continued)

Revenues – Exchange and Non-Exchange Transactions – Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to pay liabilities of the current fiscal year. For the County, available is defined as collected within 30 days of the fiscal year end.

Non-exchange transactions, in which the County receives value without directly giving equal value in return, include primarily grants. Revenue from grants is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specific purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursable basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis of accounting, the following revenue sources are considered both measurable and available at year end: local and state-shared taxes, special assessments, intergovernmental revenues, interest revenue, and charges for services. Licenses and permit revenues are not susceptible to accrual because generally they are not measurable until received in cash.

Unearned Revenue - Unearned revenues arise when assets are received before the revenue recognition criteria have been satisfied.

Expenses/Expenditures – On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus on governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

F. Budgetary Process

The County and Board of Education follow these procedures in establishing the budgetary data:

- (1) The County Manager and the Board of Education submit a proposed operating budget for their respective general and capital projects funds annually to the County Council.
- (2) A minimum of two public hearings are conducted to obtain taxpayer comments.
- (3) Prior to June 1, the County's budget is legally enacted through passage of an ordinance by the County Council. The budget is required to be balanced as to proposed revenues and expenditures.
- (4) The County's legal level of budgetary control is at the general classification of expenditure level (personnel, operating, capital outlay, debt service, etc.). The County Manager is authorized to make transfers between general classifications of expenditures within the same department and fund. Transfers between departments can be made only with the approval of the County Council. All unexpended and unencumbered appropriations in the general fund lapse at the end of the fiscal year. However, no appropriation for a capital project may lapse until the purpose for which the appropriation was made is accomplished or abandoned. A capital project is abandoned if three fiscal years elapse without any expenditure.

Note 2. Summary of Significant Accounting Policies (continued)

F. Budgetary Process (continued)

- (5) Formal budgets are employed as a management control device during the year for the general, capital projects, special revenue, and enterprise funds. Annual budgets are legally adopted and presented in the combined statement of revenues and expenditures budget and actual for the general fund, capital projects fund and special revenue funds of the Primary Government.
- (6) Budgets are prepared and adopted on a basis consistent with generally accepted accounting principles.
- (7) The general fund, capital projects fund, and special revenue fund budgeted amounts reflect the originally adopted and approved budget and the revised budget by the County Council. The budgeted amounts for the Board of Education and Library are not presented in these financial statements.
- (8) There were no supplemental appropriations for the County.

G. Cash and Short-Term Investments

For the purpose of the statement of cash flows, overnight investment accounts, stated at cost, and certificates of deposit maturing in three months or less, are considered to be cash equivalents.

H. Property Tax

Taxes are levied annually on July 1 and are due in full by September 30 for non-owner occupied properties. Owner occupied property taxes are due in two equal semi-annual installments on September 30 and December 31, respectively. Property taxes are attached as an enforceable lien and are in arrears on October 1 for non-owner occupied properties and January 1 for owner occupied properties. The County bills and collects its own taxes. County property tax revenues are recognized when collected.

I. Inventory and Prepaid Items

Board of Education inventories, consisting of expendable items held for consumption, are stated at the lower of cost or market. The cost is recorded as an expenditure item at the time the individual inventory items are used. Inventories of the enterprise funds are stated at the lower of cost or market on a first-in, first-out basis.

Certain payments to vendors reflect costs applicable to future periods and are recorded as prepaid items in both government-wide and fund financial statements.

J. Capital Assets

General capital assets are those assets not specifically related to activities reported in proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net assets and in the respective funds.

All capital assets are capitalized at cost (or estimated historical costs) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The County maintains a capitalization threshold of three hundred dollars. Public domain (infrastructure) general governmental capital assets such as roads, bridges, streets and sidewalks are capitalized and depreciated. Improvements are capitalized; the costs of normal maintenance and repairs that do not add value to the asset or materially extend an asset's life are not.

Note 2. Summary of Significant Accounting Policies (continued)

J. Capital Assets (continued)

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over estimated useful asset lives, which are as follows:

Buildings and infrastructure 7 - 40 years Sewer plants, lines, and improvements 10 - 50 years Equipment 3 - 15 years

K. Compensated Absences

County employees earn annual leave based on length of service. Annual leave accumulates, and any unused portion is paid upon termination. County employees may accumulate a maximum of 30 days of annual leave. Twelve-month employees of the Board of Education earn annual leave at varying rates dependent upon position and length of service. Annual leave generally must be taken by June 30 each year. For support staff, up to ten days may be transferred to the next fiscal year. For administrative staff, up to 20 days may be transferred to the next fiscal year.

Sick leave for all County employees is earned at a rate of ten days per year. Board of Education employees earn sick leave at varying rates depending upon position and utilization. There is no limit on accumulated sick leave. At termination, employees are not paid for accumulated sick leave; however, at retirement, a portion may be used as additional credited service under the retirement plan.

The entire compensated absences liability is reported on the government-wide financial statements. On governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. For enterprise funds, the entire amount of compensated absences is reported as a fund liability.

L. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year.

M. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by grantors, creditors or laws or regulations of other governments.

The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Note 2. Summary of Significant Accounting Policies (continued)

N. Fund Balance Reserves

The County reserves those portions of governmental fund balances that are legally segregated for specific future use or which do not represent available expendable resources and therefore are not available for appropriations for expenditures. Fund balance designations are established to identify tentative plans for restrictions on the future uses of financial resources.

O. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for services for recreational activities, sewer, airport and pool activities. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. Revenues not meeting these definitions are reported as non-operating.

P. Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Q. Interfund Receivables/Payables

On fund financial statements, receivables and payables resulting from short-term interfund loans or interfund services provided and used are classified as "Interfund Receivables/Payables." Interfund balances within governmental activities and within business-type activities are eliminated on the government-wide statement of net assets. The only interfund balances which remain on the government-wide statement of net assets are those between governmental and business-type activities. These amounts are reflected as "Internal Balances."

Note 3. Deposits and Investments

A. Deposits

Primary Government

Deposits are maintained in a variety of financial institutions. Statutes authorized the County Council to invest unexpended revenues from taxation, bond sales, lawful distributions to it of funds from other governmental agencies, or any other funds properly received by it, until it determines the funds are needed for proper public purpose, in United States Government bonds or evidence of indebtedness, the Maryland Local Government Investment Pool, or to invest in federally insured banking institutions which pledge United States Treasury bills, notes or other obligations to secure such deposits.

At June 30, 2010, the County Primary Government had deposits of \$56,675,479 including \$23,700,000 in certificates of deposit with maturities greater than 3 months, with local banks (carrying value \$55,322,168). Of those deposits, \$1,000,000 was insured by federal depository insurance (FDIC). As required by law, a depository is required to pledge securities, in addition to FDIC insurance, at least equal to the amount on deposit at all times. At June 30, 2010, all deposits were fully insured or collateralized with securities pledged in the County's name. Petty cash totaled \$7,940 as of June 30, 2010.

Board of Education

At June 30, 2010, the Board of Education had deposits totaling \$9,626,668 (carrying value \$8,382,239, which includes Fiduciary Funds). All deposits were insured by federal depository insurance due to Temporary Liquidity Guarantee Program that became effective on November 21, 2008.

Note 3. Deposits and Investments (continued)

A. Deposits (continued)

Library

At June 30, 2010, the Library had deposits totaling \$141,947 (carrying value \$132,734), which were fully insured by federal depository insurance issued by the Federal Depository Insurance Corporation (FDIC).

B. Investments

Primary Government

The County is a participant in the Maryland Local Government Investment Pool (MLGIP), which provides all local government units of the State a safe investment vehicle for short-term investment of funds. The State Legislature created MLGIP with the passage of Article 94 22G of the Annotated Code of Maryland. The MLGIP is managed by PNC Institutional Investments, which is under administrative control of the State Treasurer. A MLGIP Advisory Committee of current participants has been formed to review the activities of the Fund on a quarterly basis and provide suggestions to enhance the pool. The MLGIP portfolio is managed in a manner consistent with the Securities and Exchange Commission's Rule 2a-7 of the Investment Company Act of 1940. The MLGIP is rated AAAm by Standard and Poor's. The fair value of the pool is the same as the value of the pool shares. At June 30, 2010, the County had investments in MLGIP of \$3,000,000, which are recorded at cost, which approximates fair value.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The County's exposure to credit risk on deposits is minimal, as all deposits are in the form of cash or certificates of deposit fully insured by the FDIC or collateralized by securities pledged in the County's name. The County minimizes its exposure to credit risk on investments by limiting its investments to U.S. Treasury obligations and MLGIP.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, the County manages its investment time horizons by averaging investment maturities and chooses to present its exposure to interest rate changes using the weighted average maturity method. Generally, the County limits its weighted average maturity of its investment portfolio to less than 12 months.

At June 30, 2010, the County had the following investments, which excludes certificates of deposits maturing in 3 months or less:

Investment Type	Fair Value	Weighted Average Maturity (months)
Certificates of deposit	\$ 23,700,000	8
MLGIP	3,000,000	< 2

Note 4. Interfund Receivables and Payables

As a result of its operations, the County affects a variety of transactions between funds to finance operations, service debt, etc. Accordingly, to the extent that certain interfund transactions have not been paid or received as of June 30, 2010, appropriate due from/to other funds have been established.

Interfund transactions are classified as follows:

- 1. Transfers to support the operations of other funds are recorded as "Transfers in (out) to other funds" and classified as "Other Financing Sources (Uses)" in the fund statements. Transfers between governmental and proprietary funds are netted as part of the reconciliation of the Government-wide financial statements.
- 2. Loans between funds are classified as Interfund loans receivable and payable or as advances to and from other funds in the fund statements. Interfund loans do not affect total equity, but advances to other funds are offset by a reservation of fund equity. Loans and advances are netted as part of the reconciliation of the Government-wide financial statements.

Due from/to other funds balances as of June 30, 2010 were as follows:

			1	Oue from		Due to
			Other Funds		Other Funds	
Primary Government	<u>Purpose</u>					
General Fund	Transfers	\$	6	3,999,154	\$	-
Enterprise Fund - Sanitary District	Transfers			-		3,400,816
Enterprise Fund - Pool	Transfers			-		563,764
Enterprise Fund - Airport	Transfers			-		34,574
		_9	5	3,999,154	\$	3,999,154

Advances to/from other funds balances as of June 30, 2010 were as follows:

			Advances to Other Funds		ances from
Primary Government	Purpose				
General Fund	Construction projects	\$	855,998	\$	-
Enterprise Fund - Airport	Construction projects	-	-		855,998
		\$	855,998	\$	855,998

During fiscal year 2007, the County transferred approximately \$2.5 million to the Airport from the General fund for construction of an airport control tower. The outstanding balance at June 30, 2010 was \$855,998, which is due on June 30, 2011.

Note 5. Capital Assets

The bonds outstanding at June 30, 2010 for the primary government's governmental activities and business-type activities are general obligation bonds.

Note 6. Long-Term Debt (continued)

The County has entered into leases for the acquisition of various equipment items, which transfer ownership at the end of the lease. Accordingly, the present value of future minimum lease payments and the related assets have been recorded in the appropriate fund.

The assets acquired through capital leases are as follows:

Equipment	\$ 453,464
Less: accumulated depreciation	 (257,008)
Total	\$ 196,456

The following is a summary of the future minimum lease payments on the capital leases:

Business-Type Activities

Year Ending June 30	
2011	\$ 43,033
2012	10,305
2013	19,716
	73,054
Less amounts representing interest	 (2,785)
Present value of future minimum lease payments	\$ 70,269

Funds Used For Debt Service and Liquidation of Compensated Absences

Payments on bonds and notes payable that pertain to the County's governmental activities are made by the general fund. Payments on bonds and notes payable that pertain to the County's business-type activities are made by the fund in which the liability exists. The compensated absences liability attributable to the governmental activities will be liquidated by the County's general fund. The compensated absences liability attributable to business-type activities will be liquidated by the fund in which the liability exists.

Other Obligations

The Primary Government is obligated to pay a share of the debt service on certain bonds issued by the County Commissioners of Queen Anne's County to finance construction of the Economic Development Center building at Chesapeake College. Talbot County's share of this debt is \$68,200. Currently, the obligation is being paid by Chesapeake College, and is not reported on the balance sheet of the County.

As part of the acquisition agreement between the County and the Martingham Utilities Cooperative for the wastewater treatment facility, the County is obligated to collect fees for use of the Martingham facilities from its customers and remit a portion of those proceeds to service debt related to the entire Martingham facility. The debt is in the name of the Martingham Utilities Cooperative and is not reported on the balance sheet of the County.

The County, on behalf of the Edge Creek Waterway Improvement District, entered into a loan agreement with the State of Maryland, Department of Natural Resources for a 20 year, interest-free Waterway Improvement Loan in the amount of \$304,699. The proceeds of this loan were used to dredge Edge Creek and pay the expenses associated with the dredging. The first loan payment of \$15,235 was paid on November 1, 2009. This loan is payable from the proceeds of a special assessment levied on parcels within the district and is not backed by the County's full faith and credit. This loan does not appear on the balance sheet of the County. The County acts only as a fiduciary in collecting the assessments and servicing the debt.

Note 7. Pension Plans

Plan Description

Generally, all regular employees of the County participate in the State of Maryland Employees Retirement and Pension Systems (Employees Systems). Teachers employed by the Board generally participate in the State of Maryland Teachers Retirement and Pensions Systems (Teachers Systems). Both the Employees System and the Teachers Systems (collectively the Systems) are cost-sharing multiple-employer public retirement systems sponsored by the Maryland State Retirement and Pensions Systems and created by the Maryland General Assembly. The Maryland State Retirement Agency issues a publicly available financial report that includes financial statements and required supplementary information for the systems. That report may be obtained by writing to the Office of Legislative Audits, State Office Building, 301 West Preston Street, Baltimore, Maryland, 21201.

Participants in the Systems may retire with full benefits after thirty years of service regardless of age or at various ages with specified years of eligibility service for reduced benefits. Annual service retirement allowances are paid monthly to retired members in accordance with allowance options selected based on average final compensation. Participants terminating in the retirement system prior to specified retirement age are refunded their accumulated contributions plus earned interest or may defer receipt of accumulated contributions until age 60. Participants and their beneficiaries may also be eligible for disability and death benefits based on years of creditable service and average final compensation.

Note 7. Pension Plans (continued)

Funding Policy

The State Personnel and Pensions Article requires active members to contribute to the System at the rate of 5% or 7% of their covered salary depending upon the retirement option selected. The combined State contribution rate for the year ending 2010 is established by annual actuarial valuations. The current rate is 11.7% of covered payroll for teachers and range from 7.58% to 9.05% for classified employees. On-behalf payments consist of pension contributions made by the State of Maryland to the State Retirement System for applicable employees of the Board of Education and Library. The amounts recognized as revenue and expenditures for the fiscal year ended June 30, 2010 were \$3,309,785 and \$79,270 for the Board of Education and Library, respectively.

Employer's Payroll and Contributions Under the Plan

The employer's current year payroll for the years ended June 30, 2010, 2009, and 2008, payroll covered under the various state plans, and contributions paid are as follows:

	2010	2009			2008
Total payroll	\$ 47,023,512	\$	45,646,987	\$	42,957,688
Payroll covered under the plans	43,339,977		41,000,339		39,301,526
Actual % contributed of required contributions	100%		100%		100%
Contributions paid:					
County payments	896,377		768,879		876,371
Board of Education payments	572,742		481,796		566,123
State On-Behalf payments:					
Board of Education	3,309,785		2,887,089		2,774,097
Library	79,270		63,161		52,495

Board of Education - Funding Status

As a result of a first time actuarial study of the State Retirement and Pension System of Maryland, the Talbot County Board of Education was identified as one of 23 municipal corporations not having enough assets available to fund the present value of accrued benefits for participants in the retirement system. Under the rules of House Bill 1338, the original deficit amount was determined to be \$925,482 as of June 30, 1996, to be repaid over a period of 40 years. The Board was granted relief of \$210,003 (as of June 30, 1996) by HB1348 enacted in 1997 and further relief of \$210,003 (as of June 30, 1996) by HB430 which was enacted in 1998. The fiscal year 2010 payment was \$26,604. The payments reflect a pattern which increases by 5% per year for the next 26 years. (See also Note 6.)

Note 8. Other Post-Employment Benefits (OPEB)

Plan Description and Eligibility

The County provides post-retirement health care benefits under the Talbot County Retiree Health Plan (the "Plan"), a single-employer defined benefit healthcare plan administered by the County, to retirees who meet the Maryland State Retirement System qualifications for full retirement benefits. The retiree must be a full-time employee at the date of their retirement and must have completed at least five years of employment with the County. Current County guidelines state that if the employee has 16 or more years of service with the County, the County will pay 90% of the health insurance cost for an individual and 85% of the health insurance cost for family coverage. If the employee has less than 16 years of employment, the County reduces the portion it subsidizes by 1/16 per year. The County has the authority to establish and amend benefit provisions of the Plan. The Plan does not issue a separate, publicly available report.

The Talbot County Public Schools Retiree Health Plan (the "Board of Education Plan") is a single-employer defined benefit healthcare plan that is administered by the Board of Education Plan and covers retired employees of the Board of Education and their dependents. The Board of Education Plan provides for the payment of a portion or all of the health insurance premiums for eligible retired employees depending on their position that was held and length of service. The Board of Education has the authority to establish and amend benefit provisions of the Board of Education Plan. The Board of Education Plan does not issue a separate, publicly available report.

The Library administers a single-employer defined benefit healthcare plan for its retirees. The plan provides healthcare insurance for eligible retirees and their spouses. Employees are eligible to participate in the plan upon retirement provided they have 10 years of service with the Library and meet the eligibility requirements of the State Retirement and Pension System of Maryland. As of June 30, 2010, 1 retiree was receiving benefits under the plan, and an estimated 13 active employees are potentially eligible to receive future benefits. Active members eligible to receive healthcare benefits are currently covered under Talbot County, Maryland's healthcare plan.

Funding Policy

The County pays for the cost of post-retirement health care benefits under the Plan for eligible retirees and their dependents/family members on a pay-as-you-go basis. Eligible retirees must pay for 10% of the cost for individual plans and 15% of the cost for family coverage. For fiscal year 2010, the County paid for coverage of 54 eligible retirees, family members, and dependents at a total cost to the County of \$265,280 and eligible retirees contributed \$52,768. The County has the authority to establish and amend the funding policy of the Plan.

Premiums and other contributions for the Board of Education's share of the cost of group programs may be paid, as determined by the Board, from the assets of the Board. Premium payments for some programs may require contributions by the participant as well as the Board. The frequency and amount of such contributions shall be established from time to time by the Board. Plan members receiving benefits contribute a percentage of the monthly insurance premium. The Talbot County Public School Retiree Health Plan pays 66% of the individual premium for each insured retiree who has at least 8 years of service. Retirees with less than 8 years of service are allowed access, but must pay 100% of the published rates.

The Library pays for 66.67% of the cost of eligible retiree healthcare premiums with the retiree paying the remaining portion of the cost. For fiscal year 2010, the Library contributed \$5,167 to the plan for 1 eligible retiree.

Note 8. Other Post-Employment Benefits (OPEB) (continued)

Annual OPEB Cost and Net OPEB Obligation

The Library performed its own valuation using the alternative measurement method provided for in GASB 45. The valuations were done to determine the funded status of the plans as well as the annual required contribution (ARC) for the fiscal year ended June 30, 2010. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The County, Board of Education, and Library's annual OPEB cost, employer contributions, percentage of annual OPEB cost contributed to the plan, and net OPEB obligation were as follows:

Fiscal Year Ended June 30,	An	unual OPEB Cost	Percentage of Annual Employer OPEB Cost Contribution Contributed				Net OPEB Obligation		
Talbot County									
2009	\$	1,524,000	\$	216,362	14.20%	\$	1,307,638		
2010		1,642,000		265,280	16.16%		2,684,358		
Board of Education									
2009	\$	4,140,000	\$	239,848	5.79%	\$	3,900,152		
2010		4,467,000		238,727	5.34%		8,128,425		
Library									
2009	\$	100,000	\$	6,000	6.00%	\$	94,000		
2010		100,000		5,000	5.00%		189,000		

In future years, three year trend information will be presented. Fiscal year 2009, was the year of implementation of GASB 45, and the County, Board of Education, and Library elected to implement prospectively.

The net OPEB obligation as of June 30, 2010 was calculated as follows:

		Board of	
Determination ARC:	County	Education	Library
Normal cost	\$ 1,006,000	\$ 4,454,000	\$ 100,000
Amortization of UAAL	641,000		-
Annual required contribution	1,647,000	4,454,000	100,000
Determination of net OPEB obligation (NOO):			
Annual required contribution	1,647,000	4,454,000	100,000
Adjustment to NOO	-	(111,000)	-
Amortization of NOO	(57,000)	-	-
Interest on NOO	52,000	124,000	
Annual OPEB cost	1,642,000	4,467,000	100,000
Retiree benefit payments paid	(265,280)	(238,727)	(5,000)
Increase in net OPEB obligation	1,376,720	4,228,273	95,000
Net OPEB obligation, beginning of year	1,307,638	3,900,152	94,000
Net OPEB obligation, end of year	\$ 2,684,358	\$ 8,128,425	\$ 189,000

Note 8. Other Post-Employment Benefits (OPEB) (continued)

Funded Status and Funding Progress

	Board of				
	County	Education	Library		
Plan's valuation date	July 1, 2009	June 30, 2010	June 30, 2010		
Actuarial accrued liability (AAL)	\$ 14,689,000	\$ 50,155,000	\$ 900,000		
Actuarial value of plan assets					
Unfunded actuarial accrued liability (UAAL)	\$ 14,689,000	\$ 50,155,000	\$ 900,000		
Funded ratio (actual value of plan assets/AAL)	0.00%	0.00%	0.00%		
Covered payroll	\$ 11,685,261	\$ 30,931,517	\$ 723,198		
UAAL as a percentage of covered payroll	125.71%	162.15%	124.45%		

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of Plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the Plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the County's July 1, 2009 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 4.0% interest rate on investments and an annual healthcare cost trend rate beginning at 8.02% initially, reduce by decrements to an ultimate rate of 4.10%. The actuarial value of assets was not determined as the County has not advance-funded its obligation. The Plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll over 30 years on a closed basis. The remaining amortization period at June 30, 2010 was 29 years. It was assumed the County's payroll would increase 2.5% per year for the purpose of amortization.

In the Board of Education's latest actuarial valuation, the projected unit credit cost method was used. The actuarial assumptions included a 4% investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, a projected salary increase of 4% per year, and an annual healthcare cost trend rate of 8% initially, reduced by decrements to an ultimate rate of 4.9%. The actuarial value of assets was not determined as the Board has not advance-funded its obligation. The UAAL is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at June 30, 2010 was 29 years.

In determining its actuarial valuation of OPEB costs and liabilities, the Library used the unit credit cost method using certain assumptions and default values provided for under the alternative measurement method in GASB 45. Additionally, other assumptions were used based on comparable plans to include: a discount rate of 7.5% and an annual healthcare cost trend of 5.5%. The UAAL is being amortized as a level dollar amount over a 30 year period. The remaining amortization period at June 30, 2010 was 28 years.

Note 9. Deferred Compensation

The County offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all eligible County employees, permits them to defer a portion of their salaries until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

The County funds all amounts of compensation deferred under the plan, at the direction of the covered employee, through investments underwritten by the Hartford Life Insurance Company.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are solely the property and rights of the plan participants and are not subject to the claims of the County's general creditors.

The County has no liability for losses under the plan but does have the duty of due care that would be required of an ordinary prudent investor. In accordance with GASB No. 32, adopted by the County in 1998, the plan's assets are not reported on the combined balance sheet of the County.

Note 10. Unearned Revenues

Unearned revenue consists of federal and state grants, agricultural taxes collected, and other revenues that have been received by the County, but not expended by June 30, 2010. Under the modified accrual basis of revenue recognition, property taxes not received within the "available" period should be deferred. Property taxes receivable at year-end are nominal and have not been deferred by the County. Unearned revenue at June 30, 2010 consisted of the following:

Federal and state grants	\$ 76,845
Other sources	1,554,440
	_
	\$ 1,631,285

Note 11. Commitments and Contingencies

Primary Government

The County has a 27.93% financial interest in the Mid-Shore Regional Landfill (the "Landfill"), which is owned and operated by Maryland Environmental Service (MES). The Landfill is located in Talbot County and is shared by four counties. Under the Waste Disposal Service Agreement between MES and the County, in the event expenditures should exceed revenues, the County is obligated to cover the deficiency in proportion to its financial interest, however, to date additional funding from the County has not been required nor does management anticipate it.

In June 2007, a new cell was added to the landfill increasing its expected capacity. As of June 30, 2010, the landfill is approximately 97.7% filled. Closure of the Landfill is expected in 2011, and as of June 30, 2010, total closure and post closure care costs were estimated at approximately \$11.5 million, with approximately \$3.2 million attributable to the County. It is expected that these costs will be funded from future revenues. MES has accrued and reported as a long-term liability at June 30, 2010, a portion of these costs, \$11.2 million, determined by the estimated useful life of the Landfill.

Note 11. Commitments and Contingencies (continued)

Primary Government (continued)

MES has satisfied its financial assurance requirements based upon the local government financial ratio tests of the project participants as of June 30, 2009. MES expects to satisfy these requirements as of June 30, 2010 using the same criteria.

Due to inflation and changes in technology, laws, and regulations, estimated closure and post closure care costs may change in the future. Financial Statements of the Landfill can be obtained from MES located at 259 Najoles Road, Millersville, MD 21108.

Construction Commitments

The County has entered into contracts for the design, construction, and renovation of various facilities at June 30, 2010, which are as follows:

	Amounts Expended To Date		C	Remaining onstruction ommitment	Expected Date of Completion
Dutchman's Lane	\$	-	<u> </u>	1,498,103	December 2010
St. Michaels Sanitary Collection System Renewable Energy Project	*	548,126 2,150,113	*	27,279 1,641,187	November 2010 December 2010

Note 12. Risk Management

Primary Government

General Insurance

The County's risk financing techniques include participation in a public entity pool and the purchase of commercial insurance.

For general, property, excess and environmental liability coverage, the County is a member of the Maryland Local Government Insurance Trust (LGIT). This trust is a public entity risk pool, which is owned and directed by the local governments that subscribe to its coverages, and operates under the terms of a Trust Agreement.

Subscribers to coverage by LGIT share in the risk among participants of the pools. As a result, the County's annual premium requirements are affected by the loss experience of the various insurance pools in which it participates. Conversely, favorable performance of certain insurance pools may result in reduced premiums.

The County is fully insured for worker's compensation through commercial insurance, and employees are bonded to limit the loss to the County in the event of employees committing acts of embezzlement or theft. In addition, due to specific exclusions in the County's insurance, the County also has commercial insurance coverage for property liability at the Easton Airport. There has been no significant reduction in insurance coverage from the prior year by major categories of risk, and amounts of settlements have not exceeded insurance coverage for each of the past three fiscal years.

Health Insurance

The County self-insures health insurance coverage for its active employees with United Health Care providing third party administrative services.

Note 12. Risk Management (continued)

Board of Education

General Insurance

The Board is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Effective July 1, 1992, the Board joined the Maryland Association of Boards of Education Group Insurance Pool (MABE), which provides casualty and property insurance, and workers compensation coverage. MABE operates as authorized by Section 482B of Article 84A of the Annotated Code of Maryland. The Board pays an annual premium to MABE for its insurance coverage. The agreement for formation of MABE provides that it will be self-sustaining through member premiums and will reinsure through commercial companies as specified in the agreement. As of June 30, 2010, MABE had total fund equity of approximately \$21 million. It is believed that there are no outstanding claims in excess of the equity.

MABE publishes its own audited financial report based on a June 30 year-end. This report may be obtained from Maryland Association of Boards of Education Group Insurance Pool, 621 Ridgely Avenue, Suite 300, Annapolis, Maryland 21401.

Health Insurance

Effective with the 1996 fiscal year, the Board joined together with the Eastern Shore of Maryland Boards of Education to form the Eastern Shore of Maryland Education Consortium Health Insurance Alliance, a public entity risk pool currently operating as a common risk management and insurance program for health insurance coverage. Currently, only five counties are participating in the alliance for their health insurance coverage.

The agreement for formation of the alliance provides that the pool will be self-sustaining through member premiums. These funds have been invested in the Maryland Local Government Investment Pool.

The pooling agreement allows for the pool, which is administered by Carefirst Blue Cross/Blue Shield of Maryland, to make additional assessments to make the pool self-sustaining. As of the date of this report, no outstanding claims are believed to exist that are in excess of the equity of the trust.

Note 13. Deficits

At June 30, 2010, the Sanitary District Fund, the Easton Airport Fund, and the Pool Fund had deficits in unrestricted net assets of \$1,207,061, \$657,688, and \$606,412, respectively. These deficits are expected to be eliminated through normal operations.

Note 14. Unrestricted Net Assets

The County has issued bonds and notes payable for capital assets for the Board of Education of Talbot County and Chesapeake College. Therefore, while the County's financial statements include this outstanding debt, they do not include the capital assets funded by the debt. At June 30, 2010, the outstanding balance of these bonds and notes payables was \$38,584,526 and the effect of this non-capital debt has been reflected in the unrestricted net assets of the County.

Note 15. Restricted Net Assets

The Board of Education has net assets restricted for food service operations totaling \$281,929. The Library has net assets restricted for various programs within the Library totaling \$1,147,902.

TALBOT COUNTY, MARYLAND NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

Note 1. Budgetary Basis

Required supplementary information includes financial information and disclosures that are required by the Governmental Accounting Standards Board but are not considered part of the basic financial statements. Such information includes budgetary comparison schedules for the general fund and the schedule of funding progress for other post employment benefits. The budgetary information is prepared and adopted on a basis that is consistent with generally accepted accounting principles.

Note 2. Schedule of Funding Progress - Other Post-Employment Benefits

Effective January 2009, the County increased its contribution percentage for post-employment benefits from 66.66% to 90% for eligible individual plans and 85% for family coverage.

The information in this schedule is intended to help users assess the County's OPEB Plan's status on a going-concern basis, assess progress made in accumulating assets to pay benefits when due, and make comparisons with other public employers. Multi-year trend information was available begining in 2009, as this was the first valuation under GASB 45. In future years, information from the three most recent valuations will be presented.

Other Supplementary Information

TALBOT COUNTY, MARYLAND NOTES TO OTHER SUPPLEMENTARY INFORMATION

Note 1. Budgetary Basis

Other supplementary information includes financial statements and schedules that are not required by the Governmental Accounting Standards Board nor are they considered part of the basic financial statements. Such information is included for purposes of additional analysis. The budgetary information contained in this section is prepared and adopted on a basis consistent with generally accepted accounting principles. Such statements and schedules include:

Budgetary Comparison Schedules:

Capital Projects Fund
Developmental Impact Fund
Talbot Family Network
Recreation Facilities
Sanitary District
Easton Airport
Pool Fund

Combining Balance Sheet - Other Governmental Funds Combining Schedule of Revenues and Expenditures - Other Governmental Funds This page is intentionally left blank.

STATISTICAL SECTION

The Statistical Section presents detailed information as a context for understanding what the information in the preceding sections says about the County's overall financial health. They differ from financial statements in that they usually cover more than one year and may present non-accounting data. For this reason, they are unaudited.

Schedules 1-4 reflect **financial trends** data to help the reader understand how the County's financial performance and well-being have changed over time.

Schedules 5-11 reflect **revenue capacity** and help the reader assess the County's most significant local revenue sources.

Schedules 12-15 reflect **debt capacity** and help the reader to assess the affordability of the County's current level of outstanding debt and the County's ability to issue additional debt in the future.

Schedules 16-17 offer **demographic and economic information** to help the reader understand the environment within which the County's financial activities take place.

Schedules 18-20 contain **operating information** to help the reader understand how the information in the County's financial report relates to the services the County provides.

Unless otherwise noted, the source for all data presented is the Talbot County Finance Department.
