The Office of Permits and Inspections
Talbot County, Maryland

Building Permit

- A building permit is required prior to construction of a detached garage in Talbot County. A building permit application may be obtained from the Talbot County Office of Permits and Inspections located at 215 Bay Street, Suite 3, Easton, Maryland. Applications are accepted between 8:00 a.m. and 4:00 p.m. Monday – Friday. A fee for a building permit is based upon the value of the construction project. Each applicant is required to fill out the **entire** permit application and sign and date the bottom.

Site Drawings

Submit **four (4)** Site Plans showing the following: drawn to a standard engineering scale of 1"=10', 1"=20', 1"=50', etc. with scale noted.

- The site plan and all existing and proposed structures and improvements including accessory utility equipment (ex: HVACR, generators) shall be drawn to the same scale.
- Location and dimensions of all roads, easements, property lines and natural features.
- Setbacks from property boundary lines, shorelines, streams, and

wetlands to the proposed structure(s).

- All structures shall be shown on site plans and be properly labeled in order to be accepted.
- The location of the existing septic system and the Sewage Disposal Area (SDA) if applicable. Include the location of the septic tank(s) and the location of the distribution system (tile fields & distribution box or dry well). If the applicant is unclear as to the location of the SDA, the applicant may contact the Office of Environmental Health to review the records. If an approved SDA exists on site, both the SDA and septic system must be shown on the plan.
- The location of the well, labeled as existing or proposed.
- The location of the driveway, labeled as existing or proposed.

Construction Drawings

Submit **three (3)** sets of Building Plans showing the following:

- The three (3) to scale copies of construction drawings should show construction detail, including floor plan showing door & window size, footing/foundation, cross section and elevation details. **Foundation plans** should show dimensions, size & spacing of piers, vent location, wall thickness, size & depth of footers, framing detail, joist size & spacing and beam spaces, footing, foundation, joist size and beam size. **Cross section plans** should show construction detail from footer to ridge beam. **Elevations** should show: height, roof pitch, ventilation, roof material, front, back and side elevations. If your construction is determined to be in a special flood hazard area, compliance with the Talbot County Floodplain Management Code is required.
- For property served by well and septic systems, the County Environmental Health Department will review the project for

compliance with appropriate setback requirements.

- Four inspections are required for this construction:
 1. A setback and footer inspection is required after the excavation of the trench and prior to the pouring of concrete.
 2. A foundation inspection is required after the foundation has been completed and prior to backfilling, (if required).
 3. A rough framing inspection is required after framing is completed. If applicable, a rough electrical inspection may also be required.
 4. A final inspection is required after the garage construction is completed.
- To request inspections, please contact the Office of Permits and Inspections at 410-770-6840.
- Construction must begin within 9 months and be completed within 18 months.
- A Certificate of Occupancy or Certificate of Completion will be

issued only after the project has passed all required inspections.

This permit guide *may not* address all situations but is intended to provide general information for the permitting process.

Please contact our office or go to our website for obtaining a permit package of requirements and application forms.
