PART A

PROJECT DESCRIPTION: Describe the proposed project in detail. Include location and specific activities to be undertaken.

Talbot Interfaith Shelter (TIS) seeks to install a wheelchair lift at each of their side-by-side shelter homes at 107 and 109 Goldsborough Street in Easton MD. The lifts will be used to serve guests, volunteers and community members with physical disabilities. There are ADA-designed bedrooms rooms on the first floor, but there are between 5 and 6 steps to get into the houses.

Since the homes are in Easton's Historic District, the lifts need to be at the back of the houses. A platform will need to be constructed for both homes. An accessible walkway will need to be constructed from the front sidewalk to the rear of the house at 109 Goldsborough Street.

The lifts need to be rated 'commercial' and are more expensive than lifts for a single-family residence.

Please see enclosed estimates for more details.

PART B

PROJECT NEED/IMPACT: Describe the need for the proposed project. Include statistics and other documentation supporting the described need. Discuss how the project will make an impact on the described need? If existing infrastructure or facility, discuss past maintenance and improvements undertaken or deferred.

Talbot Interfaith Shelter (TIS) operates within two historic homes in Easton, Maryland, serving individuals and families experiencing homelessness. Easton's Promise is located at 107 Goldsborough St, Easton and can house up to five families. Evelyn's Place is located next door at 109 Goldsborough Street and is designed to serve up to five men and nine women at a time.

While these buildings have been lovingly maintained and adapted over the years to accommodate their guests' needs, they were not originally designed with accessibility in mind. Currently, both of our primary shelter buildings lack wheelchair lifts, which poses a significant barrier to entry for guests, volunteers, and community members with mobility challenges.

According to the CDC, approximately 13.7% of American adults have a mobility disability, and this rate is even higher among individuals experiencing homelessness due to aging, chronic health issues, and past injuries. Without accessible entryways, we risk excluding a vulnerable population that may already be hesitant to seek help. Moreover, the Americans with Disabilities Act (ADA) mandates that shelters make reasonable accommodations to ensure equal access to services, which includes accessible entrances.

Installing a wheelchair lift will remove this physical barrier, enabling TIS to serve all who come to their doors with dignity and safety. It will also ensure that they remain in compliance with ADA regulations and reinforce their mission of providing safe, stable, and supportive housing for everyone, regardless of physical ability.

As stewards of these historic properties, TIS has invested in regular maintenance and upgrades, including roof repairs, HVAC replacements, plumbing updates, and interior refurbishments. However, budget constraints have delayed larger accessibility projects like this one. This grant would allow TIS to take a crucial step forward in making their shelters fully inclusive and accessible to all in need.

PART B WORKSHEET

NOTE:

- 1. As CDBG funds are "Gap" financing, did you pursue *appropriate* other funds from state, federal agencies and/or private sources? What other funding sources did you pursue for this project? What is the status of those requests?**

Talbot Interfaith Shelter received Community Development Block Grant (CDBG) funding in 2018 for the transformation of an open porch into an enclosed counseling and training center at Easton's Promise shelter (107 Goldsborough St.). The funds were also used for improvements to walkways for disabled access and renovation of two bathrooms for ADA accessibility. The approval also included \$8,280 for a mechanical lift in the new counseling area. As the project got underway, it was determined that a commercial lift would be required, versus the residential lift that was quoted in the application. Due to lack of funds, the project was not completed.

TIS has submitted subsequent letters of interest for CDBG, COVID and ARPA funds to support the elevator lift project. In communications with DHCD staff it was determined that the "CDBG Special Project Funds" would be the best fit for this project.

TIS has also applied for help from local foundations. They have received a grant from the Thomas Perrin Smith Fund under the Mid-Shore Community Foundation in the amount of \$15,897 for exterior maintenance of historic houses. If necessary, a portion of these funds could be applied to this project for any unforeseen exterior expense or mitigation costs. They are seeking \$3,520 from a private donor to offset the shipping costs.

Please provide copies of award and rejection letters.

- 2. Will your project require payment from beneficiaries including, but not limited to: rent, fees for services, fees for participation, and utility charges? no**

If yes, what is the estimated monthly cost? _____

Is the cost per person or households? _____

If this project improves existing facilities, housing or utilities, is the estimated cost higher than the current amount? no

If yes, what is the % increase? _____

Discuss how new or increased costs were determined:

Discuss how grantee or subrecipient determined that charges are affordable to beneficiaries:

PART C

COMMUNITY SUPPORT AND INVOLVEMENT: Describe community involvement with developing this project and application. Attach current letters of support for this project and the CDBG funding. *NOTE: This activity is separate from the public hearing(s).*

The development of this project has been shaped by ongoing input and support from our community. Talbot Interfaith Shelter (TIS) maintains strong relationships with local partners, volunteers, donors, and advocates, many of whom have voiced concerns about accessibility challenges at our facilities. The need for the wheelchair lifts was brought to our attention through direct feedback from guests, staff, and community members who are passionate about ensuring that all individuals—regardless of mobility—can fully access the services and support TIS provides.

This application is supported by board members and volunteers who are deeply invested in improving the physical spaces to reflect TIS's values of dignity, inclusivity, and equal access. TIS has also received encouragement and input from trusted partners, including **Chesapeake Neighbors**, **Neighborhood Service Center**, and **Talbot Family Network**, all of whom recognize the critical importance of making the shelters accessible to individuals with disabilities. These organizations have offered their insight, expertise, and community perspective to ensure the success and long-term impact of this project.

This initiative reflects a truly collaborative community effort to create a more inclusive and welcoming environment at TIS, and we are confident that local stakeholders will continue to champion this project through advocacy, partnership, and support.

PART D

LOCAL PLANNING/GROWTH MANAGEMENT: Answer the following questions:

1. Describe how the proposed project conforms to revitalization strategies, marketing studies, economic development strategies, capital improvement plans, housing study, a comprehensive plan or other community plan. Do *not* submit copies of the entire plan(s), but reference the name and date of the plan, the section and the page. You should ATTACH a copy of the REFERENCED portion which specifically mentions your project.
2. For economic development projects discuss any feasibility studies, economic conditions survey, financial analysis, economic impact assessment or market analysis completed in relation to the proposed activity. Provide the dates those items were completed and information on who prepared them.
3. Is your project located in a Priority Funding Area? Yes No

Chapter 4, Community Services and Facilities, of the Talbot County Comprehensive Plan (2016) identifies homeless as a “special needs population”. Talbot Interfaith Shelter is specifically mentioned under Homeless Services as an establishment that provides safe, temporary shelter and a location that raises awareness for the issues of homelessness.

Talbot Interfaith Shelters provide housing, food and other integrated services for both homeless families and individuals.

The 2010 Town of Easton Comprehensive Plan housing goals and objectives include provisions for safe, sanitary, structurally sound housing and upgrades to neighborhood designs. The Town of Easton Plan also addresses the supply of low-income housing and the need to partner in countywide affordable housing efforts.

Evelyn's Place is located next door at 109 Goldsborough Street and is designed to serve up to five men and nine women at a time. This project is focused on providing reasonable accommodation for staff, visitors and homeless citizens that have a temporary or permanent disability.

- If the project requires information on family size and income, does the information demonstrate that at least 51% of the clientele served are persons from households whose income does not exceed the LMI income limits. The activity is restricted to the LMI persons. Please identify activities:

All persons served are experiencing homelessness because they cannot afford market rate housing. None of the people served by TIS exceed the LMI limits.

Describe the proposed accomplishments of the project: The wheelchair lifts allow all persons to include those who are temporarily or permanently physically disabled to access TIS programs, which are designed to enable people experiencing homelessness to save their income for a time and to access educational programming that teaches them how to save and to prioritize expenses. TIS also helps program participants apply for subsidized housing. No fees are charged to live at the shelter homes, and dinners are provided for the guests by volunteers 365 days per year.
